## How it Works

### The Big Question

Are you satisfied with your financial position? Most people will answer “No” to this question.

Why? Because most people work for someone else. They have a job and their income is determined by their employer. The richest people in the world will tell you that in order to achieve true financial freedom you have to be your own boss. You have to own your own successful business or have a substantial amount of shares in a big company.

Most people however cannot start their own businesses as they lack the finances, know-how and support. We present to you an opportunity to join a business concept that will enable you to enjoy the same benefits of having your own successful business but without the huge costs, planning, set-up and risks involved. So if you find yourself in the same position as most people today - lack of finances, no job satisfaction, lack of free time to do the things you really want to do or maybe you are just ready to take on a challenge, then our opportunity might just be what you have been waiting for.

### The Solution

We offer you a network marketing opportunity. Why? Because it is the fastest growing industry in the world and offers every person, irrespective of background, education or current circumstances, the opportunity to have his / her own business.

With our opportunity you earn money by introducing others to our products and income opportunity. If they subscribe to one of our policies we pay you a monthly referral fee for as long as the policy is paid. What's more, if they start introducing our policies to others as well then we pay you even more.

## Questions and Answers

- **How can I make payment?** All payments can be made via debit order, paid at the office or any ABSA.
- **Are there any extra costs?** For policy holders only, none. You only pay the once-off admin fee (R80) and the monthly premium on your own policy. For business owners a R45 per month fee is payable to cover costs of business building events like training and live presentations.
- **Can I start working my business immediately?** Yes, you don't have to wait for your first payment to go through. You can however, only start earning once your own policy is paid.
- **When do I get paid?** We pay commissions not later than the 15th of the month based on the previous month's premiums received.
- **How long do I get paid?** For as long as premiums are paid. In fact it is paid even longer than your lifetime as your children (or whoever you choose) can inherit this business & therefore continue to earn the income you have built up!
- **When do I receive my policy contract?** Under normal circumstances, it is mailed to you 4-6 weeks after your first premium and once-off admin fee have been received.
- **Will my team grow?** Yes, everyone who wants to earn on levels 2-4 must do 80 points / 2-4 sign-ups per month or they will only earn on level 1. Platinum team members don't have to do 80 points and automatically earn on all levels.
- **Must everyone buy the business kit?** People interested in the cover do not have to purchase the business kit. They must only complete the application form for the cover they want and pay the once-off admin fee (R80) and monthly premiums.
